

ENERGY POLICY & OBJECTIVES

Hume Cement Sdn. Bhd. is committed to practicing energy efficiency and energy conservation throughout its operations to create a sustainable plant and office environment. To fulfil these commitments, all employees of Hume Cement Sdn. Bhd. shall:-

- Contribute towards efficient energy management and clean environment
- Strive for continuous effort in improving energy management in the plant where possible
- Comply with all applicable legal and other requirements that are related to energy use, consumption and efficiency

As a basic policy, its activities shall be implemented throughout the entire office and plant facilities, with the involvement and participation of all related employees. This Policy shall be communicated to all relevant parties in the organization.

Objectives:

- To contribute towards efficient energy management and clean environment
- Execute, maintain and constantly improve energy performance
- To use eco-friendly equipment subjected to availability and economically feasible
- To phase-out inefficient equipment and improve where possible
- Provide utmost support for the purchase of energy-efficient products and services
